ДЕЛЬФИН И ЧЕРЕПАХА

рис. Олеси

**В океане черепаха
Под водой плыла с размахом.
Ох, огромна и сильна,
По размеру в полслона!**

**Панцирь крепкий, костяной,
С головою вверх трубой.
Рядом с ней дельфин играя,
Песню пел, с неё ныряя:**

**«В первый раз я вижу дом,
Погружённый в водоём!
В нём четыре ласты – ножки
И от хвостика дорожки.»**

Голова, где не пойму?
Нет её, а почему?
У всех рыб для их движенья,
Тела служит продолженьем.

Рассекаем воду ею,
Этой головой своею...
Не найти мне головы,
Есть глаза, как у совы.

Знак вопроса вылез только,
Спереди у шкафа, щёлка!»
Изменился вдруг вопрос
И поймал дельфина хвост.

**Подержал его недолго,
Пожевал его немного
И сказал, не торопись:
«А теперь с меня ты слазь!»**

Голова моя стара,
Но от старости - мудра!
Ты попрыгал, порезвился
И на мне ты прокатился.

Вот теперь тащи меня,
Ты быстрее же, чем я.
Мне на берег срочно надо,
А игра твоя награда.

**Испокон веков дельфины
С черепахами дружили.
Видишь сразу за тобой,
Я быстрее плыву домой!**

**В океане мы друзьями,
Будем жить и плавать с вами!»
Отвечал дельфин, смеясь:
"Ты из дома не вылазь!**

**Поплывём вдвоём с тобой,
Но не трогай хвостик мой.
Черепаший род умён,
Обеспечен он жильём.**

**Там где ты, там и твой дом.
Посиди пока ты в нём.
Океан лишь водоём,
Где мы весело живём!**

Черепашек черепахи
Прячут в яицах, в песке.
Как согреются малявки,
Так бегут в водичку все.

Помогу тебе конечно,
Черепашек я люблю.
Детство очень быстротечно,
Видишь к берегу рулю!»

the 1980s. The 1980s have been a decade of change for the world of work, and the 1990s are likely to be a decade of further change. The changes are likely to be more radical than those of the 1980s, and they are likely to be more widespread.

The changes are likely to be driven by a number of factors. One of the most important is the increasing competition from other countries. This is leading to a need for companies to reduce costs and improve efficiency. Another factor is the increasing demand for new products and services. This is leading to a need for companies to be more flexible and innovative.

The changes are likely to have a significant impact on the world of work. They are likely to lead to a restructuring of the workforce, with a shift from manufacturing to services. They are also likely to lead to a change in the way that work is organized, with a move towards more flexible and decentralized structures.

There are a number of ways in which companies can prepare for these changes. One way is to invest in training and development, so that employees have the skills and knowledge needed to succeed in a changing world of work. Another way is to improve communication and collaboration within the organization.

It is clear that the world of work is changing rapidly, and that companies need to be prepared for these changes. By investing in training and development, and by improving communication and collaboration, companies can ensure that they are well positioned to succeed in the 1990s and beyond.
